TITLE II - ALLOCATION AND DISTRIBUTION OF RIGHTS

Only repertoire qualifying for rights under the law shall be taken into consideration for distribution. In the absence of any details about the repertoire that was used, the society shall, for distribution purposes, take into consideration the information that is most relevant to the musical or audiovisual usage in the relevant category.

Article 8 : Still subject to the data the society can reasonably have at its disposal, the duration of the performed work and/or a broadcast frequency indicator thereof shall be taken into account for rights distribution purposes. The amount allocated to the use of the work shall subsequently be proportionally distributed on the basis of the number of performing artists who took part in the performance, the role(s) of said performing artists in the performance, always in fairness and, insofar as necessary, with reservation of a share for performing artists in relation to whom information is still lacking.

Article 9 : The Board of Directors can propose to the General Assembly, on compelling economic and/or technical grounds which must be conclusively proven and objectively justified, to allocate part of the rights for any given reference year to another year.

Article 10 : The net result of the collections executed for each of the rights described in the third chapter of the present title shall be distributed among the eligible associated and affiliated members, according to a distribution calendar to be approved annually by the Board of Directors. The distribution calendar shall be published on the society's website.

Article 11 : Any rights transferred by foreign management companies under the reciprocal agreements concluded with them, shall be distributed among the associated and affiliated members, in accordance with the distribution rules of the foreign management society in question and on the basis of the repertoire declared by the associated and affiliated members at the moment of distribution. Article 12 : Payments are effected in euro only, by bank transfer into the personal account of the associated or affiliated member, with the exception of payments to similar foreign companies on whose behalf the society collects and distributes rights under reciprocal agreements. Payments not exceeding the amount of 200 euro due to associated or affiliated members outside of the IBAN system shall be credited to the account of the associated or affiliated member concerned and carried over to a next payment, unless the associated or affiliated member concerned explicitly insists on immediate payment.

Article 13 : Until such time and insofar as objective reasons recognised by law were to render adherence to the term described in article 10 impossible, the rights collected and slated for distribution shall be reserved for the performing artists concerned for a period not exceeding three years. This period shall run from 1 January of the year in which (the first) payments for the year in which the performance of the relevant work generated rights were made until the end of the subsequent second year. Upon expiry of this period, the current distribution shall be deemed concluded, whereupon the subsequent General Assembly shall decide on the appropriation of any remaining funds, in accordance with the relevant statutory provisions.
